## Project Summary

### Background

Our school develops student participation through the student parliament, recently established at lower secondary and long-standing at primary level. We joined this project to share experiences with a partner school and gain inspiration. It will connect parliaments across both levels, enhance students' democratic skills, and strengthen their responsibility, including engaging students with fewer opportunities.

### Objectives

Through this project, we aim to strengthen students' participation in school life through the student parliament and connect its activities across primary and lower secondary levels. We seek to gain inspiration and best practices from the partner school, improve students' democratic competencies, and support the inclusion of all students, including those with fewer opportunities, while developing their foreign language communication skills.

### Impact

We expect that students will gain experience in running a student parliament, improve their democratic and communication skills, develop teamwork abilities, and actively participate in school life. The project will also provide inspiration for the development of the lower secondary parliament, connect it with the primary level, and support the inclusion of all students.
